

Hello, & thanks for regarding my opinion. Radio Air One, is station that I listen to occassionally, & my child listens to quite regularilly. It is good to know that most anywhere we travel, we can get this station.I wish that LPFM would not disrupt my listening ability, or even terminate it. I believe the programing that stations like this, provide morals that greatly enhance our society. As we look at other societies that don't have absolute right & wrong, we see anarchy ruling, presently & in past history. Therefore this station contibutes to an orderly society & daily life, which we all desire. Thanks for your time & consideration. dave
